

Penetration resistance

Rugged anti-slip sole

Composite toecap

## FEATURES:

The Alcona 3000 series safety shoes are general utility work shoes that feature (1) water-repellent upper nylon mesh lining for improved foot hygiene, (2) antistatic and puncture-proof Kevlar® mid-soles, (3) anti-slip outsoles, (4) lightweight composite protective toe caps with enhanced durability, and (5) PU foam insoles for extra comfort for periods of extended wear. The mid cut version is particularly suitable for work that requires additional protection and support around the ankle.

## SPECIFICATIONS:

COLOUR	Black
